Republican Committee in Session  
Expels J. M. McClintock  
from Meetings.

Quite a sensation was caused at Paris, Ky., when the announcement was made that the Republican Committee had expelled J. M. McClintock from the Republican party.

Chairman, W. L. Yerkes, being absent, A. B. Thomason, then elected pro tem Chairman, then came the lengthy and sensational resolution, submitted and adopted, alleging "that McClintock worked actively and openly in Democratic primaries year after year, though professing to be a Republican; that he had betrayed and acted with treachery toward the Republican party in collusion with Democrats, thus rendering odious the party to which he pretended to belong, etc., etc., therefore."

It is resolved by the Republican County Committee of Bourbon County that the said McClintock be and is hereby expelled from the Republican party in said county, and his presence at Republican conferences and conventions will not be tolerated. It is further resolved that Morin Moore, Henry Clay, J. W. Larkins, W. A. Thomason, A. B. Thomason and other Republicans, as they desire to associate with themselves be appointed Sergeants at Arms to take charge of all meetings of the Republican party in said county, and they are authorized to prevent said McClintock from attending same. J. D. McClintock, is a well known politician. He conducts a fire insurance agency and news stand.

## Destroying Stumps On the Farm.

An experienced farmer says: "In the fall bore an inch hole down into the center of the stump 14 or 16 inches deep. Put a couple of ounces of saltpeter into this hole, fill with water, and plug up tight. In the spring take out the plug, pour into the hole about half a gallon of kerosene oil, and light it. The stump will burn away slowly without blazing, to the ends of the roots, leaving nothing but ashes." The nitrogen in the saltpeter will penetrate into the roots during the winter, and the coal-oil will easily start the fire, and the wood dissolves into ashes. The ashes will be worth as much as a fertilizer as the saltpeter and oil will cost.

## PROCLAMATION-All who would See the New Spring Wearables-ATTEND!

## Chair of Sunday-School Pedagogy To Be Established.

A chair of Christian and Sunday-school pedagogy will, in all probability be placed in the Southern Baptist Theological Seminary next session, and one of the most prominent Sunday-school workers in the country is mentioned as the professor who will fill the chair.

It is, as far as is known, the first chair of its kind ever established in any theological seminary. It is the result of the evolution of a series of lectures on Sunday-school works delivered before the students of the seminary in the last four or five years. Dr. E. Y. Mullins, the president of the seminary, conceived the idea which has met with the hearty approval of all the members of the faculty.

The chair, it is contemplated, will be supported jointly by the seminary and by the Sunday-school board of the Southern Baptist Convention, which has headquarters in Nashville. Dr. J. M. Frost, a former Kentuckian, is secretary of the Southern board which already has taken action, practically endorsing the plan. The annual meeting of the trustees will be held in May 10, at which time the plan will be laid before them for

their consideration, and it is almost certain that the chair will be established. The professor who takes the chair will teach Christian and Sunday-school pedagogy about eight hours a week, and the rest of the time he will relieve Dr. Mullins, who is now overworked. Dr. Mullins teaches theology in the seminary.

In addition to taking this work the students will be given mission classes in Sunday-school which will give them practical experience. There are already several text books upon the subject, but it is not embraced in any theological training at present.

E. A. Fox, General Secretary of the Sunday-school Association of Kentucky, heartily approves the plan. He said: "If the plan is adopted by the Southern Baptist Theological Seminary, and I have no doubt that it will be, every seminary in the country will take it up and it will produce almost a revolution in the methods of conducting Sunday-schools."

## Wages Too High For Farmers.

One reason why laborers on the farm is scarce is because the great cities and railroads can afford to pay more than the farmers can. The farmers cannot pay a common, stout man \$1.50 per day; so they will do without the help and reduce their acreage in cultivation. This will be a necessity, but it will produce a scarcity that will be seriously felt among the mechanics, clerks and merchants, who will have to pay higher prices for all kinds of vegetables and fruits.

When the city of Nashville fixed the price of a stout, unskilled laborer at \$1.50 per day, thousands of colored people threw down the plow and rushed into the city, leaving the farmers and their wives to struggle to keep up their farms. If improved implements are used on the farms, they will greatly relieve the enforced conditions.

There are now in Nashville hundreds of white families who can greatly improve their financial condition by moving to the country and teaching their daughters to do domestic work, and their boys to handle the ax, hoe and plow. The country is the place for health, comfort and freedom from care.—Southern Agriculturist

## Dairy Don'ts.

Copy these don'ts, stick them up in your dairy barn and observe them next to the ten commandments. The latter will make you a better man and the former a richer one:

Don't mix water with your customers' milk.

Don't mix warm milk with that which has been cooled.

Don't mix dirt with milk. Keep the cow's udders clean.

Don't expose the milk to bad odors. It is astonishing how quickly it will assimilate them.

Don't keep the milk in the barn longer than possible. As soon as drawn it should be strained into clean vessels and put in a cool place.

Don't add anything to the milk to keep it from souring. Cooling it quickly and thoroughly is the only thing necessary.

Don't milk the cows until you have thoroughly cleaned their udders. No strainer can remove the foreign matter or odor of it after it is once dissolved in the milk.

Don't be irregular about the milking. Have a certain hour at

sight and in the morning, and always milk at that time.

Don't be loud or rough when handling the cows. If you have good milkers they are necessarily very nervous. For this reason it is advisable to excite them as little as possible. Many a good cow has been ruined by harsh treatment or abuse.

Don't fail to observe these rules and you will be richer at the end of the year and have a better paying herd.

## Lime To Prevent Diseases on Cabbage.

Some seasons protracted rains greatly damage the cabbage crop, it being destroyed by club root and rot. All the old cabbage stubs should be removed from the plot of land where cabbage grew last year. Where club root was last year among the plants, at least fifty bushels of air-slaked lime should be applied per acre to destroy fungus germs this spring before cabbage plants are transplanted. Put seed bed on pure, clean soil, and if any of the young plants show signs of disease on the roots, put them in the fire.

## Be Forgot It.

When Colonel Watterson was writing his reminiscences of the "Liberal Republican" convention which assembled at Cincinnati in 1872, did he forget to put Bromley's Joke in? After Horace Greeley and Gratz Brown had been declared the convention's nominees, Bromley began to "fuss" about the leaving time of the morning train across the river in Kentucky. "What's the matter with you?" asked a friend, "Well," said Bromley, "I've seen one mammoth cave, and now I want to see the other."

### ANNOUNCEMENTS.

#### FOR CONGRESS.

We are authorized to announce Judge John F. Hunter, of the county of Montgomery, a candidate for the office of Governor of the State of Kentucky at the election of the Democratic party.

#### FOR CONGRESS.

We are authorized to announce Judge John F. Hunter, of the county of Montgomery, a candidate for the office of Governor of the State of Kentucky at the election of the Democratic party.

### DON'T DELAY.

Find the right thing to do and then do not fail to do it without a moment of lost time. This principle is appreciative to all departments of business and of every duty of life.

The man that knows the right thing and then fails to do it or defers the doing indefinitely is a man void of good results. Better know the right and then go ahead. Right here the present City Council might learn a lesson.

### GET OUT.

It is the man of correct purposes and plenty of energy that brings things to pass that is worth while. A man without purposes had as well be a stump or any other inanimate thing. The man with a public trust who realizes his duty to his constituents, and who has a suggestion along business lines, be it economy or advancement, is worth something but if he is just a defunct object better get out of the way. We have some such that pose as a per night.

### MAJORITIES WILL WIN.

"Henry Watterson from somewhere down in Florida has discovered that William R. Hearst will control in the next Democratic convention."—Chattanooga Times.

He has not said so. What he did say was that the Bryan and Hearst forces, united, would probably be able to control the next Democratic convention.

### Courier Journal.

There will be Democratic forces at the coming National Convention. Hearst will have a following and doubtless will, as will also Mr. Bryan, but Democratic delegates will be there for the greatest interest of the party and majorities will be made.

### WORTHY OF PROMOTION.

The Sentinel Democrat is at issue with us on the question of a U. S. Senator to succeed the present incumbent. We are pleased to see the mind with our brethren of the South when they are right but on this question as we see it the people are for Governor Beckham and we can not be better pleased than to be close to them.

Between Judge Paynter and Senator Blackburn the editor of the Sentinel Democrat ride a loser with whip and spur, but the people said Paynter. It is not possible that the Sentinel Democrat's views may again be in opposition to those of the people.

Personally it is a matter of no great concern to us who our next Senator is, a member of the minority party can do but little to aid Kentucky or the South, but we think the honor should be passed around and we are patriotic enough to have a warm feeling in our hearts for our gallant young Governor, J. C. W. Beckham whose absolute honesty, clean life, pronounced ability, courage and industry have made him a nation

## THE U. S. CREAM SEPARATOR

Skims the Best Cream from the Milk, because its bowl (where the skimming is done) is really three bowls in one. This feature is found in no other separator and enables the U. S. to hold the World's Record for clean skimming.

Runs Smoothest and Easiest, because the driving gears are entirely enclosed, self-oiling and automatically supplied with fresh oil. No other separator has all these advantages.

Is Easiest and Quickest Washed, because there are only two simple parts: the bowl, and because the bowl is wide enough to be easily cleaned inside. Other separators' bowls have from 5 to 45 inside parts, or are long and narrow like a gun barrel.

Is Most Convenient, because the top of the milk supply tank is about four inches above the operator's waist, making it easy to fill. This means labor saved.

Lasts Longest, because there are ball bearings at high-speed points, and because the parts are few, simple, strongly made, and easy to get at.

The U. S. is the separator for you to buy because it is better than any other, and will give you the biggest value for your money. You should see one yourself to really appreciate all its good points. Call and see one. They are sold by

al character. The people of Kentucky believe in him and love him, and the extravagant claims of a few knickers outside his army of admirers are with out foundation, in fact. We are in accord with the Sentinel Democrat that the people of this and every county in the state should have a voice in the selection of our Senators and we think a primary in the manner in which to get the expression of the

people. Such a manner would do away with quibbling from the disgruntled element and demonstrate beyond a doubt that Gov. Beckham is the peoples choice and will succeed the hard working faithful McCreary. The people are to speak on this great question and through him we could see their determination to do honor to him whom honor is due.

## COL. THOMAS JOHNSON

SOLDIER, STATESMAN, FRIEND, CLOSES HIS CAREER

SATURDAY EVENING, APRIL 7, 1906.

AGED NINETY-THREE YEARS.

At Saturday evening, April 7, 1906 at 10:42 a. m., after a career of four score ten and three years, Col. Thomas Johnson yielded his life to death and his spirit passed to his reward. He had been unable to go about for several weeks owing to rheumatism produced by old age, and gradual weakness until he was unable to move. He died at his home within a year he was of vigorous mind, interested in passing events, and more especially was interested in the survivors of the Confederacy, now he lived and by whom he was held in the highest esteem. When considering the end, which he knew was fast approaching, he was frequently heard to say: "Carry me remains to the Christian Church where funeral services may be conducted and where my fellow comrades may participate in the service," and in this and all other in their wishes were respected. Services were conducted by Rev. H. D. Clark, after which the ex-Confederates took charge of the body, and after their formal services, tender, loving hands laid it to rest in Madison, Kentucky.

Col. Johnson joined the Sumner Christian Church in 1867, was married in 1871 to Miss Elizabeth Potts, daughter of the late A. G. Potts. Mrs. Johnson, with six children—Robert Sidney, Mrs. Pettie Riley, Mrs. J. M. Hoffman, Misses Anna and Nettie Johnson, of this city, and Mrs. J. M. Hutton, of Cincinnati, survive him.

Col. Johnson was a positive character, a man who remained well, and was fearless in the discharge of his convictions. A Democrat from conviction, he never compromised with error, and regardless of men, his suffrage was according to his principles, and hence he was always in line with his party. Defeated by men and money in the war of the States he stood for the brave soldier and commander that he was, but was stood for by his convictions and the South was right. He believed that the present action of the Federal Government in the tearing of states and the destruction of and damage to property should be stopped and would the opinion that a just and magnanimous people would some day close in the South a sum of money sufficient to reimburse the suffering for the losses sustained.

A good citizen, a good man, kind and affectionate husband and father was Col. Thomas Johnson.

Col. Johnson was born in the county July 4, 1812, and his career has been a most remarkable one. His father, James Johnson, was a native of Maryland and was brought to Kentucky by his mother after the death of his own father and grew up in this State. After attaining his majority Thomas, the son, began trading in stock, in addition to farming, and was so successful that in a few years he was able to purchase a large farm near the family household. In later years he purchased the now famous tract also. He owned considerable cotton land in the South, besides numerous other holdings, all made by his own energy and excellent business ability.

In early manhood Col. Johnson took considerable interest in martial affairs, and for a time was captain in the State militia and rose from private position to the rank of major general. In 1861 he was one of the two men selected to represent Kentucky in the Provisional Confederate Congress.

He was granted a commission of Colonel and served with distinction throughout all war, being a portion of the time with Morgan in Kentucky. When that General made his raid in Mt. Sterling, Col. Johnson's horse was killed under him, and he suffered many narrow escapes and hardships. After the surrender of Lee, Col. Johnson returned to his home and again devoted his attention to stock raising and farming. In 1877 he represented his district, composed of the counties of Montgomery, Wolfe, Powell and Meander, in the lower house of the State Legislature, having been elected by the Democratic party, of which he was a leading spirit. In 1878-'82 he was again called into the political arena and served the district composed of Montgomery, Bourbon and Clark, in the State Senate, serving his constituents on both occasions with ability and credit to his State.

Col. Leonard Bathaway, of Winchester; A. T. Foreyth, of Paris; J. H. Rineberg, of Frankfort; and Maj. O. S. Tenny, of Lexington, attended the funeral service of Col. Johnson. Maj. Tenny conducted the Confederate burial service.

Attorney, \$900; Supt. of Schools \$600; Road Supervisor, \$360. W. W. Eubank presented a claim for salary claim to be due him from April 1, 1905 to Jan. 1 1906 for services as Road Supervisor amounting to \$600. Henry, Dean, Shultz and Perry voted to allow. Thompson, Trimble and Hazelrigg voted nay. County Attorney Thomas on behalf of county objected to allowance and asked for appeal. C. F. Thomas was allowed an amount equal to 25% of the county's portion of back taxes collected, recovered by suits.

### THURSDAY

Thompson reported contract with Old Kentucky Telephone and Telegraph Co. for phones in Court and Circuit Clerks and Sheriff's offices at \$24 per year for all three phones contract approved.

### RE INDEXING

Perry moved and Henry seconded the following: "That L. Dean and J. W. Henry are hereby appointed a committee to employ by the month not less than 2 nor more than four competent and efficient men to re-index the county court records upon such plans or basis as they may fix and determine, the salaries not to exceed \$60 per month each. They may select one of said men to have supervision of and control of said work subject to the approval of said committee and said committee shall at all times have the right to discharge any of said men at any month. Said committee is given power to act without restriction in said matter, but will report the progress of said work to the court at each meeting." Motion carried. Henry, Dean, Shultz and Perry voting yes. Thompson, Trimble and Hazelrigg voted no.

J. M. Oliver was directed by unanimous vote to measure all rock cranes and used on pikes as previously referred to, and his official measurement and calculations shall be attached to all such claims presented by Road Supervisor.

### Concert.

The concert at the Baptist church on Friday evening by Mrs. Princess Long of Paris, under engagement of Y. W. C. T. U., was a rare treat. She has a commanding personality; her voice is well trained, full and clear; her unaffected and graceful manner is captivating; more christian spirit is beautiful. Miss Grace Howell presided at the piano and by delicate touch showed her skill as a musician.

Letter From A Friend at Bowen, Kentucky

I admire very much the stand you take on the temperance question and trust that you may live many years to continue for the right. I am sure that all who are interested in the right appreciate your efforts along this line. We are greatly elated over our success with the recent legislature. And while I am no prophet yet I predict that Montgomery county will go dry in less than 12 months and that Kentucky will be a dry State in less than five years. Wishing you all success. I am yours in the work.

The State meeting of the Federation of Women's Clubs will be held here three days from June 30. The organization at this place has selected the various committees, and extensive preparations are being made to entertain the delegates. The welcome address will be made by Mrs. Mary Winn Lockridge.

**Farce Too Long Kept Up.**

The Hon. James E. Cantrill, titular Judge of the Court of Appeals is now at Mississippi City drifting in the ozone from the Gulf's soothing atmosphere and suasive waves. Duty to the Commonwealth of Kentucky compels us to wish him also to call for a cessation of the farcical side of Cantrillism. The Hon. James E. Cantrill is receiving an enormous salary for duties he is unable to render the people of Kentucky. Judge Cantrill has never been, since his election to the Court of Appeals, fit for the discharge of Judicial duty. The business of the State and of the people has, accordingly, suffered. The State Treasury suffered for one year by paying \$5,000 for what it cannot be fairly said it got from James E. Cantrill—the services of an Appellate Judge. It is now suffering by paying two big salaries, one to James E. Cantrill, enabling the latter to live at Mississippi City, or somewhere health resort, and another to Judge Carroll under the title of Commissioner for what Judge Cantrill should be doing as Judge in active duty.

With James E. Cantrill, the sick man, we sympathize: in the case of James E. Cantrill the disqualified Judge, we feel that he ought to get justice, but no more.

Judge Cantrill should quit the bench.—Louisville Herald.

## Pret y Safe Rule to Go By.

If there is a fellow that the heart or lungs, blood or liver, brain or nerves are diseased, commence to doctor the stomach. That is the cause of 90 cases out of every 100. Diseases that begin in the stomach must be cured through the stomach. The medicine for stomach disorders is Dr. Gunn's Improved Liver Pills. Sold by druggists for 25 cents per box. One pill is a dose. They put the organs in such condition that diseases have no basis to work upon.

## How To Capture Sparrows.

A Nashville gardener is troubled with the English sparrows and wants to know the best way to get rid of them. If he will soak wheat in whisky or alcohol for 48 hours and place it upon the top of the barn or some outhouse, the sparrows will eat the wheat and get so drunk that they will fall down on the ground, when they can be caught. Roasting pieces of biscuit or lighthouse will be as effective as wheat.

## Preparing Corn Land.

It is not the earliest planted corn that produces the earliest or largest ears, but the corn that is put in when the land has been thoroughly prepared. Keep plowing the land, and when the seed are planted they will outgrow the plants where the soil is not pulverized. Getting the land in thorough condition before planting corn will be worth more than two plowings after they are up in half-way prepared soils.
